

TOPIC PROPOSAL – DUE JANUARY 20, 2021
September 22-25, 2021, Renaissance Cleveland Hotel, Cleveland, Ohio
SABM 2021 Annual Meeting

“PBM Rocks!”

Return completed forms to info@sabm.org

Learning Objectives:

1. Utilize strategies to minimize all modalities of blood loss and enhance blood production.
2. Employ strategies to optimize coagulation to mitigate the risk of excessive blood loss or development of thrombosis.
3. Relate the latest research-based recommendations for the detection, evaluation and treatment of anemia in hospitalized and non-hospitalized patients.
4. Explain the rationale for quality, safety and financial metrics for successful patient blood management programs.
5. Evaluate the elements of patient centered decision-making as it relates to patient blood management.
